# Get to Know us.

### Get to know us.

"We are Silvia and Lucía, a tandem of strategy and creativity that turns communication challenges into growth opportunities"

Silvia, our founder, holds a Veterinary degree from the Complutense University of Madrid, with over 20 years of experience in communication and strategic marketing, and a Master's in Communication and Advertising from ESIC. Lucía has a Law and Business degree from the Pontifical University of Comillas and a Master's in Digital Marketing, Sales, and Digital Strategy. Together, they create a unique synergy that combines solid expertise with fresh creativity to design comprehensive, results-driven strategies.

The team also includes designers, photographers, video and recording specialists, and other creative professionals, allowing us to deliver innovative, integrated solutions tailored to each client.

AGA develops fully customized communication and marketing strategies based on Inbound Marketing methodology, focusing on attracting clients with valuable content, building trust, and converting that relationship into sustainable results, always with a flexible approach that adapts to each brand's needs.

Get to know us.

"Empowering a sector that feeds and cares"

# Our mission.

To empower the agri-food and healthtech sectors through strategic communication, branding, and creative thinking, transforming complex messages into clear, meaningful stories that connect with people and drive real change.

# Our vision.

To be the leading communication partner for organisations that feed and care for the world, amplifying their voice, strengthening their identity, and promoting a sustainable future.

# Our philosophy.

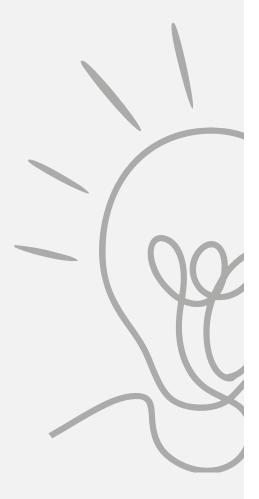

Since 2003, AGA has been a communication, marketing, and branding consultancy specialised in the agri-food and healthtech sectors. Now expanding internationally, we continue to build on the same philosophy: understanding the language, values, and challenges of these industries to help our clients communicate with clarity, purpose, and impact.

Get to know us.

# Our values.

"We don't see big or small clients — each one of our clients is unique and the most important to us"

# 01 Expertise

Our multidisciplinary team brings together marketing and communication experts, creative designers, animal and human health specialists and trademark and patent lawyers, working together to deliver specialised and effective communication and branding solutions for the healthtech and agrifood sectors.

# 02 Adaptability

From one-off actions to full communication strategies, we tailor every service to the unique needs of each organisation.

### 03 Commitment

We immerse ourselves in your brand's identity and values to deliver a complete, consistent service aligned with your business goals.

# 04 Agility

With the flexibility your business demands, we ensure objectives are achieved efficiently and always on time.

### Innoporc y La Romana se alzan este año con los premios Porc d'Or especial Zoetis a la Innovación

Durante una gala en streaming llena de emoción y entretenimiento, la granja segoviana Producciones Ganaderas, de la empresa Innoporc, en producción de cerdo de capa blanca, y la Granja cordobesa La Romana, en el caso de cerdo ibérico, han sido merecedoras del ansiado galardón, como reconocimiento de su esfuerzo innovador.

### PRODUCCIONES GANADERAS, DE LA EM-PRESA INNOPORC: "LA CALIDAD DESDE EL ORIGEN"

Guiados por el lema "La calidad desde el origen", la empresa familiar Producciones Ganaderas, dedicada a la cría de cerdo blanco y a la fabricación de pienso, apuesta por la innovación, apoyándose en un equipo humano altamente formado y comprometido con el proyecto. Integrada dentro del grupo Innopore, Producciones Ganaderas es una de las 20 granjas bajo el paraguas del grupo matriz, y ha sido reconocida con el premio Porc d'Or Especial Zoetis a la Innovación 2020 por su proyecto CheckPig. Además de este reconocimiento a la mencionada granja de cerdo blanco, el grupo Innopore comprende también diferentes granjas de cerdo ibérico, categoria dentro de la cual ha resultado galardonado con la plata en Longevidad y sendos bronces en Nacidos vivos y Tasa de partos. Respecto al premio en innovación, la herramienta CheckPig basada en un software, permite la recogida de datos y la gestión los procesos en grania, generando un flujo de infor-

mación entre las granias y la organización, que hace posible | valor para el manejo, la variable de mayor peso en lo que a

doccom), sumando tecnología puntera, intriga, emoción y

diversión a partes iguales.
